

COMPENG 2SH4 Project – Statement of Contribution

Your Group Number asim-alsoofi

Your Name Hasan Asim

Your Team Member's Name Nooraldeen Al-Soofi

You must complete this statement of contribution without discussing it with your project partner, i.e., individually. Your statement should be concise (at most one-and-a-half page). It has three parts:

1. Tell us about your own contribution to the development of your COMPENG 2SH4 project. For example, you can tell us about which project iterations (as mentioned in the project manual) and C++ project classes that you worked on and completed. You can provide a concise answer either in paragraph form or through bullet points.
 - Edited Iteration 0
 - Iteration 1
 - Iteration 3 feature 1
 - Commenting

2. Repeat Part 1 above but this time tell us about your project partner's contribution to the development of your COMPENG 2SH4 project.
 - Iteration 0
 - Edited Iteration 1
 - Iteration 2
 - Iteration 3 feature 2 and 3

3. Tell us about your experience in your first collaborated software development through this project – what was working and what wasn't. If you are a one-person team, tell us what you think may work better if you had a second collaborator working with you.
 - It was a great experience because it is something that I may see in my workplace in the future
 - It was a great to have someone that I was working with, where we can assist each other if we needed help
 - I learned how important it is to follow Git practices (ex. frequently committing) and communicating with your partner.
